Notice of First East Longmeadow Positive

Please be advised that the East Longmeadow Health Department has been alerted to its first three confirmed cases of Covid-19 (coronavirus). While this is our first notification of confirmed cases, we do not believe this reflects a growing risk, but rather just a growth in testing capacities. We anticipated and made local policies that reflect our understanding that wide spread community transmission was already occurring. With the testing availability slowly increasing throughout the State, we do anticipate that infection rates in East Longmeadow will continue to rise. What we ask from you is that you continue to stay home unless you absolutely need to go out, if you are out, ensure you are standing 6 ft away from people, and wash your hands for 20 seconds as often as possible. Please call our Covid-19 hotline with any questions or concerns at (413) 486-9000.
